We are informed by the clerk of the board of school trustees that it is necessary to charge a contingent fee of 25 cents a month for each child attending school: a good part of the school money will have to be expended for new desks to accommodate the large attendance, and for coal and other incidentals. Then next year it will be necessary to enlarge the building and this will take more of the school funds. If the board of school trustees will have the good sense to reduce the nominal charge of 25 cents per month we should all congratulate ourselves.  
"You may break, you may shatter the vase if you will, But the scent of the rose clings around it still."

The town council arrested Mr. W. E. Register a book agent for violating an ordinance requiring a license from peddlers and book agents. Policeman Higgins made the arrest and took Mr. Register before Intendant Brown who required a forfeit of \$10, until the council could be convened. Register did not put up the \$10, so he was put in the guard house and kept there a short while and released under advice of Counsel. Register is in communication with the attorney and will be brought up before the council again to answer the town for false imprisonment.  
LaGrippe, with its after effects, annually destroys thousands of people. It may be quickly cured by One Minute Cough Cure, the only remedy that produces immediate relief in coughs, colds, croup, bronchitis, pneumonia and throat and lung troubles. It is sold everywhere. D. O. Rhame, Summerton; Dr. W. M. Brockington, Manning.  
**Fire.**  
Manning has again been visited by fire; this time it laid waste the well filled store of C. W. Kendall. On last Friday morning between 2 and 3 o'clock policeman Higgins and Mr. R. M. Dean were standing by what sounded to them like an explosion in the New York Racket store, looking in that direction they saw a light flash and then everything became dark. Mr. Higgins immediately on seeing the light ran to the council chamber and rang the fire alarm. When people gathered at the place the store was filled with a dense smoke, totally hiding any blaze, that is, none could be seen from the outside. It was not until the fire engine was way out on account of the very sensible course pursued by Intendant Brown who forbade the opening of the doors. Had the doors been burst open, the flames would have gotten out and the flames would have spread so rapidly that the buildings on either side would have been destroyed sure; as it is, only one building was destroyed, and those on either only slightly damaged. Mr. Kendall always carried an immense stock and not one thing was saved; when he reached the fire, no human being could have lived many minutes in the smoke-filled store which prevented the crowd from attempting to save the goods, and thereby kept the fire confined in the Kendall store.  
It was Mr. Kendall's custom to keep a light burning in his store, but the fire on the outside could see inside, which was a protection to the property, and on Thursday night before closing the store the usual investigations were made, and everything was in order when he went out for the night. Mr. Kendall informs us that the insurance on his stock is \$8,500, and that that the stock on hand at the time of the fire he estimates at from \$1200 to \$1500. The building belonged to Mrs. M. E. Walker, and was insured for \$1200.  
The fire coming on Mr. Kendall at this time makes his loss the more severe, on account of loss of business. He did a very large cash trade this last month, and what he calls his harvest months. The people throughout the country sympathize with Mr. Kendall in his misfortune, and we express a general sentiment when we hope he will soon be selling goods again. Mr. Kendall has done much for Manning. He did a business that drew people from far and wide to this market, and while he sold immense quantities of goods himself, every merchant in the town realized some benefit from Kendall's enterprise.  
Kendall is an up-to-date business man who believes in the principle of "live and let live" and the methods he employed put life and snap into the business, and which soon made Manning one of the best purchasing markets in the State; not a little of this condition of things is due to Kendall's efforts, and while Manning was benefited, so were the people who bought goods at low prices. We hope that before Christmas Mr. Kendall will be making things hum in a brand new store, and wide-awake merchant.

**Military Inspections.**  
The Manning Guards, Connor Mounted Rifles, and the Hampton Light Dragoons were inspected by Col. J. D. Frost last Friday. In the morning the Manning Guards, consisting of 45 men, marched out on the court house square and presented a creditable appearance, and when it is considered, the little encouragement Captain Lewis is receiving to maintain his organization, he deserves more than ordinary mention for the appearance of his men. At the conclusion of the inspection, Colonel Frost announced that under the law the company lacked 15 men to pass muster, but they could pass inspection, and that he left the report open so that Captain Lewis might be enabled to get up the deficiency. Upon the invitation of Colonel Frost we accompanied him to Silver where we arrived in time to sit down to a magnificent barbecue prepared by the ladies of the Summerton Episcopal church. We need not mention the spread was fine, for it is a well known fact that a spread in that community means an epicurean feast, especially when the gallant Colonel Frost is present. A large crowd of about 100 persons were present, and the notes of which were arranged and written by Herr E. P. Briggs, the music was of German attraction, and we believe had their been an expert on the ground and might have extracted some-knot from the melody. The troops 60 in number were well mounted and although they had very little room for evolutions their formations were very good indeed. Captains Wells and Richardson have every reason to feel proud of their respective commands.  
For 23 years Colonel David W. Brailsford did active service in the militia and his not taking part in the parade on this occasion was remarked with regret. The Colonel after arranging every detail to insure the perfect success of the drill and inspection, gracefully turned the command over to Capt. R. C. Richardson, saying that his company commanders should arrange a practical and useful parade of squadrons maneuvers on these occasions, and for the first time in his long and brilliant career he looked on as an interested spectator at the maneuvers of his battalion. A pleasing feature of the parade was Master Donald Brailsford of Richmond Virginia, a handsome little eight year old nephew of Colonel Brailsford, who mounted on a pretty penny rode at the head of the column and did a graceful staff duty for Colonel Frost. He was the delight of the ladies and children, and by a unanimous vote of the companies he became their "mascot." When Colonel Frost finished his inspection he made a splendid talk to the men and it is advised is carried out the Cavalry will continue being the finest in the State.

**Sumter District.**  
**Editor THE TIMES:**  
The district meeting of the Woman's Foreign Missionary Society of Sumter District convened at Packsville October 20-22. Mrs. Darby, our efficient secretary, presided. She was assisted by Mrs. J. W. Hubert. An address of welcome was made by Miss Eva Curtis. Appropriate responses were made by Mrs. Hubert and Herbert. About twenty-five delegates and visitors were present. Rev. J. W. Hubert could not be present at each session, but while here was ever ready with words of encouragement and helpfulness. The report of the district secretary was very encouraging and shows that the district is steadily growing. Mrs. Hubert, our corresponding secretary, stressed the necessity and reasonableness of the contingent fund. Mrs. Hubert urged more reading of missionary literature among the members. Both were ever ready with encouraging words and gave much valuable information in regard to our work at home and abroad. Letters from several of the missionaries were read, giving us a glimpse of the inner life of these dear girls. Rev. O. Darby of Magnolia preached an able sermon Sunday morning to a large and attentive congregation. The meeting closed on Sunday evening. The officers and delegates were delightfully entertained in the hospitable homes of friends and co-workers. We trust that we may have the privilege of entertaining them soon again. The next annual meeting will be held at Summerton. We believe that many of the delegates who were lodged in the minds and hearts of our people and, we hope, will henceforth be actuated by higher and purer motives and who will give sweeter and more joyful service. Cor. and Rec. Sec'y. Packsville, S. C.

**Summerton Notes.**  
**Editor THE TIMES:**  
On Friday night the Summerton Dramatic Club, managed by Mr. H. A. C. Walker, gave an interesting and profitable entertainment in the hall of the White Mountain Hotel, before a large house. It was a complete success in all respects, the people having been well entertained and a good amount having been taken in at the door. The chor. was excellent talent and they promise to give our people a series of good attractions during the season. The next attraction scheduled is Dixie Minstrels, under same management, which will doubtless be a grand and draw a large crowd. They will be on hand Friday, Nov. 17. All the proceeds will go for the benefit of the Summerton Graded School.  
At last we have rain, refreshing rain, and we hope no one will kick till the dust is laid. The crops are pretty well harvested.  
Mrs. I. Y. Eason died on Friday and was buried on Saturday evening at St. Paul's church, a large crowd being present to witness the last sad rites. The crushed husband and innocent little babe have the deepest sympathy of all our people.

**Chamberlain's Pain Balm Cures Others.**  
Why Not You?  
My wife has been using Chamberlain's Pain Balm, with good results, for a lame shoulder that has pained her continually for nine years. We have tried all kinds of medicines and doctors without receiving any benefit from any of them. One day we saw an advertisement of this medicine and thought of trying it, which we did and thought of trying it, which we did and thought of trying it. She has used only one bottle and her shoulder is almost well. Adolph L. Millett, Manchester, N.H. For sale at the R. B. Loryea drug store.

**Used by British Soldiers in Africa.**  
Capt. C. G. Denison is well known all over Africa as commander of the forces that captured the famous rebel Ghalibe. Under date of Nov. 4, 1897, from Vryburg, Bechuanaland, he writes: "Before starting on the last campaign I bought a quantity of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I used myself when troubled with bowel complaint, and had given to my men, and in every case it proved most beneficial." For sale at the R. B. Loryea drug store.

The man who eats clover is never quite free from the breath of suspicion.  
It will not be a surprise to any who are at all familiar with the good qualities of Chamberlain's Cough Remedy, to know that people everywhere take pleasure in relating their experiences in the use of that splendid medicine and in telling of the benefit they have received from it, or bad colds it has cured, of threatened attacks of pneumonia it has averted and of the children it has saved from attacks of croup and whooping cough. It is a grand, good medicine. For sale at the R. B. Loryea drug store.  
The man who feels like a king at night, usually feels like the deuce next morning.  
The Greatest Evidence of the dangers of cholera morbus, diarrhoea, and dysentery is the increase in the death rate during the summer months. You cannot be too careful, and particular attention should be paid to the diet. A supply of Pain-Killer should always be at hand for it can be relied on at all times as safe, sure and speedy. A teaspoonful will cure any ordinary case. Avoid substitutes, there is but one Pain-Killer, Perry Davis'. Price 22c. and 50c.

The average man doesn't expect to meet anybody but strangers in heaven.  
J. D. Bridges, editor "Democrat," Lancaster, N. H., says: "One Minute Cough Cure is the best remedy for croup I ever used. Immediately relieved and cures coughs, colds, croup, asthma, pneumonia, bronchitis, gripe and all throat and lung troubles. It prevents consumption. D. O. Rhame, Summerton; Dr. W. M. **Cane Mills and Evaporators.**  
Do not throw money away by buying a poorly made cane mill. We sell the GOLDEN MILL, which is one of the best made. Why? Because they are constructed of the very best material, and are made as compact as possible to secure Strength, Durability and Easy Running, and their capacity must not be judged by appearances, but determined by the size of the larger rolls which have greater diameter than in some mills with larger exterior measurements.  
They press the cane dry, as only strong mills compactly built and with lathe-turned rolls will do. The gears are detachable from rolls, and with improved clutch for these parts, there can be no slipping.  
Beware of mills "WITH ROLLS CAST IN ONE PIECE," in such the breaking of a single cog or the wearing out of any or all of them necessitates the purchase of an entire new roll and gear.  
Particular attention is called to the Steel Shafts used in these Mills. They will not bend or break like iron, and will wear longer with less friction; they run in babbitted boxes which, when worn, can be renewed by any machinist at a trifling cost. Steel shafts and babbitted boxes produce but little friction, hence great durability and easy running. They are fitted with steel bolts and lock set-screws and other improvements suggested by experience necessary to the completion of a perfect Cane Mill.  
Our EVAPORATORS are all of the COOK PATTERNS and are made of heavy rolled Copper or Galvanized Steel instead of iron, both of superior quality. They are durable, cleanly, simpler and more effective in operation. These goods we bought at prices much lower than are now prevailing, and can offer a No. 1 Mill and No. 3 Evaporator for \$27 at store or f. o. b. cars Manning.  
We are agents for the Osborne and Deering Mowers and Rakes. Our space will not allow us to give a description of these, but those wishing to purchase should call and examine them; you will find them the Best, Lightest Running and Easiest Machine kept in repair in any of the market. Housekeepers, when in want of a first class Cook Stove, come and see "Our Leader" Cooks, they are the best ever shown here. Some of the special features are Cast Iron Ash Pan, rods in fire box are incased to prevent burning out, Double Covers, Double Centers, cut long centers, Cut top, Heavy Center Rest, Tin Lined Oven Doors. We are informed by the clerk of the board of school trustees that it is necessary to charge a contingent fee of 25 cents a month for each child attending school: a good part of the school money will have to be expended for new desks to accommodate the large attendance, and for coal and other incidentals. Then next year it will be necessary to enlarge the building and this will take more of the school funds. If the board of school trustees will have the good sense to reduce the nominal charge of 25 cents per month we should all congratulate ourselves.

The town council arrested Mr. W. E. Register a book agent for violating an ordinance requiring a license from peddlers and book agents. Policeman Higgins made the arrest and took Mr. Register before Intendant Brown who required a forfeit of \$10, until the council could be convened. Register did not put up the \$10, so he was put in the guard house and kept there a short while and released under advice of Counsel. Register is in communication with the attorney and will be brought up before the council again to answer the town for false imprisonment.

O. Rhame, Summerton; Dr. W. M. Brockington, Manning.  
**Fire.**  
Manning has again been visited by fire; this time it laid waste the well filled store of C. W. Kendall. On last Friday morning between 2 and 3 o'clock policeman Higgins and Mr. R. M. Dean were standing by what sounded to them like an explosion in the New York Racket store, looking in that direction they saw a light flash and then everything became dark. Mr. Higgins immediately on seeing the light ran to the council chamber and rang the fire alarm. When people gathered at the place the store was filled with a dense smoke, totally hiding any blaze, that is, none could be seen from the outside. It was not until the fire engine was way out on account of the very sensible course pursued by Intendant Brown who forbade the opening of the doors. Had the doors been burst open, the flames would have gotten out and the flames would have spread so rapidly that the buildings on either side would have been destroyed sure; as it is, only one building was destroyed, and those on either only slightly damaged. Mr. Kendall always carried an immense stock and not one thing was saved; when he reached the fire, no human being could have lived many minutes in the smoke-filled store which prevented the crowd from attempting to save the goods, and thereby kept the fire confined in the Kendall store.  
It was Mr. Kendall's custom to keep a light burning in his store, but the fire on the outside could see inside, which was a protection to the property, and on Thursday night before closing the store the usual investigations were made, and everything was in order when he went out for the night. Mr. Kendall informs us that the insurance on his stock is \$8,500, and that that the stock on hand at the time of the fire he estimates at from \$1200 to \$1500. The building belonged to Mrs. M. E. Walker, and was insured for \$1200.  
The fire coming on Mr. Kendall at this time makes his loss the more severe, on account of loss of business. He did a very large cash trade this last month, and what he calls his harvest months. The people throughout the country sympathize with Mr. Kendall in his misfortune, and we express a general sentiment when we hope he will soon be selling goods again. Mr. Kendall has done much for Manning. He did a business that drew people from far and wide to this market, and while he sold immense quantities of goods himself, every merchant in the town realized some benefit from Kendall's enterprise.  
Kendall is an up-to-date business man who believes in the principle of "live and let live" and the methods he employed put life and snap into the business, and which soon made Manning one of the best purchasing markets in the State; not
